

National Finance Center Customer Notification

Date of Notification: August 9, 2011

Subject: NFC BEAR Application Issue Resolved

Database/Customer(s) Affected: All

Dear Customer:

This notification is a final update to a notice issued earlier stating that the Bi-Weekly Examination and Analytical Reporting (BEAR) process was incomplete. We have determined that there was an issue in the BEAR processing sequence for Database 06, which caused a delay in its timely completion. This, in turn, caused certain outputs and reports to be delayed. Databases 05, 07, and 08 were not affected. The issue has been resolved. Database 06 agencies are advised to validate all outputs and reports received and rerun as necessary.

Federal employees with questions concerning this notification should contact their Servicing Personnel Office. Authorized agency representatives with questions concerning this notification should contact NFC's Client Management Branch at Customer.Support@nfc.usda.gov.

KW/M5-11-105/128

"Tip of the Week"

When a Quick Service Request (QSR) is processed in SPPS Mainframe, agencies are reminded to transmit a T&A for the pay period of the QSR along with the next pay period's T&A.
